Chronic disease shared appointment

Definition /Required elements of service:
Chronic disease shared appointment is a pre-scheduled primary care service rendered for chronic disease management, to two or more patients with the same diagnosis of one of the diseases listed below, that consists of assessment and the provision of advice and information in respect of diagnosis, treatment, health maintenance and prevention.

Each patient must have an established diagnosis of one of the following chronic diseases:

a. Diabetes
b. Congestive Heart Failure
c. Asthma
d. Chronic obstructive pulmonary disease (COPD)
e. Hypercholesterolemia
f. Fibromyalgia

The physician must be in constant personal attendance for the duration of the appointment session, although another appropriately qualified health professional may lead parts of the educational component of the session (for example, a diabetic educator or nurse). In addition, a clinically appropriate assessment must be rendered to each patient by the same physician as a component of the chronic disease shared appointment.

This service has the same specific elements as an assessment.

Commentary:
A clinically appropriate assessment may include a brief history or examination of the affected part or region or related mental or emotional disorder.

Commentary:
A claim must be submitted for each patient receiving a service. For example, if three patients are seen in a shared appointment, K141 is submitted for each patient. If four patients are seen, K142 is submitted for each patient.

Payment rules:
1. Unit means ½ hour or major part thereof - see General Preamble GP6, GP45 to GP50 for definitions and time-keeping requirements.
2. The service is only eligible for payment when:
   a. the appointment is pre-scheduled; and
   b. each patient regularly visits the physician or another physician in the same physician group for management of their chronic disease.
3. Chronic disease shared appointment rendered the same day as an additional assessment by the same physician to the same patient is not eligible for payment unless there are clearly defined different diagnoses for the two services.
4. Chronic disease shared appointments are only eligible for payment for up to a maximum of twelve (12) patients per shared appointment.

Medical record requirements:
The service is only eligible for payment where the clinically appropriate assessment rendered on the same day is recorded in each patient’s permanent medical record.

Claims submission instructions:
A locum tenens replacing an absent physician in the absent physician’s office must submit claims under their own billing number.

Commentary:
Chronic disease shared appointment does not apply to lectures.

Community treatment order (CTO)

CTO Services - are time-based all-inclusive services payable per patient to one or more physicians for the purpose of personally initiating, supervising and renewing a CTO. b. services related to application for psychiatric assessment or certification of involuntary admission;

c. services relating to assessment and treatment of a medical condition or diagnosis unrelated to the CTO; and

d. in-patient services, except those directly related to mandatory assessment for the purpose of initiating a CTO.

Unit means ½ hour or major part thereof - see General Preamble GP5, GP37 to GP41 for Definitions and time-keeping requirements. A single all-inclusive claim for CTO Initiation or CTO Renewal is submitted once per patient per physician per initiation or renewal in any six month period on an Independent Consideration basis. A single all-inclusive claim for CTO Supervision is submitted once per patient per month on an Independent Consideration basis. The form provided by the MOHLTC for elapsed times must be completed and submitted with each claim and a copy retained on the patient’s permanent medical record. The total number of allowable units rendered per claim shall be determined by adding the actual elapsed time of each insured activity rounded to the nearest minute, dividing by 30 and rounding to the nearest whole unit. CASE CONFERENCES

PREAMBLE

Definition/Required elements of service:
Where the conditions set out in this Schedule are met, a case conference is an insured service despite paragraph 6 of s. 24(1) of Regulation 552. A case conference is a pre-scheduled meeting, conducted for the purpose of discussing and directing the management of an individual patient. **Special nuclear medicine consultation**
A special nuclear medicine consultation is payable when all components of a regular nuclear medicine consultation are met but, because of the very complex, obscure or serious nature of the problem, the physician is required to spend a minimum of 50 minutes with the patient in consultation.

**Payment rules:**
When a nuclear medicine consultation or repeat consultation is rendered in conjunction with a nuclear medicine study, only the P2 professional fee is payable for the study (rather than the P1 professional fee).

### Diagnostic consultation
A diagnostic nuclear medicine consultation is the service rendered:

a. when nuclear medicine studies rendered at one institution or facility are referred to a nuclear medicine specialist in a different institution or facility for a written opinion. In this case, the specific elements are the same as the nuclear medicine professional component P2 (see page B1); or

b. when a nuclear medicine specialist is required to make a special visit at evening or night (17:00h to 07:00h) or on a Saturday, Sunday, or holiday to consult on the advisability of performing a nuclear medicine procedure, which eventually is not done. In this case, the specific elements are the same as for consultations.

Special ophthalmologic assessment
Special ophthalmologic assessment is a complete ophthalmologic assessment, rendered by an ophthalmologist, to a person with a psychological problem, developmental delay, learning disability, or significant physical disability which so limits the person’s participation in the assessment that the physician is required to spend a minimum of 20 minutes in direct contact with the patient, family, and/or legal representative.

In addition to the assessment, this service requires all of the following:

a. the development of a continuing comprehensive vision care plan;

b. provision of appropriate information to the patient’s health care team regarding the patient’s vision to allow them to better prepare both general and academic plans; and

c. reporting the findings, opinions or recommendations in writing to other health care team members regarding this evaluation and future planning.

A251 Special ophthalmologic assessment ........................................................................ 120.00

Payment rules:
1. No other assessment or consultation is eligible for payment when rendered by the same physician to the same patient the same day as A251.
2. This service is limited to a maximum of 2 services per patient per physician per 12 month period.

Medical record requirements:
1. The start/stop time of the service must be documented in the patient’s medical record or the amount payable for the service will be reduced to a lesser fee.
2. A statement of the medical condition and how it limits the patient’s ability to participate in the assessment with the physician must be documented in the patient’s medical record or the amount payable for the service will be reduced to a lesser fee.
3. A copy of the letter to other health care team members must be maintained in the patient’s medical record or the service will be reduced to a lesser fee.

[Commentary: Examples of medical conditions that may qualify for this service include certain chromosomal abnormalities, autism, cerebral palsy etc. or evaluation of children/infants with low vision associated with or resulting in developmental delay.]

[Commentary:
1. In calculating the minimum time requirement, time does not need to be continuous. In circumstances where a physician to allied health professional telephone consultation service with the consultant physician on the same day is not continuous, the total time represents the cumulative time of all telephone consultations with the same allied health professional on that day pertaining to the same patient.

2. Payment, other than by fee-for-service includes compensation where the physician receives remuneration under a salary, primary care, stipend, APP or AFP model.

3. Physicians who receive compensation other than by fee-for-service under this Schedule should consult their contract for guidance on shadow-billing.]

Medical record requirements:
K480 is only eligible for payment where the following elements are included in the medical record for a physician who submits a claim for the service:

1. patient’s name and health number;

2. start and stop times of the discussion;

3. name(s) of the allied professional participating in the telephone consultation;

4. reason for the consultation; and

5. the opinion and recommendations of the physician.

Note:
1. The definition/required elements of service and payment rules for consultations in the General Preamble are not applicable to physician to allied professional telephone consultations.

2. This service is eligible for payment in addition to visits or other services provided to the same patient on the same day by the same physician.
